

Andrea Edwards
Former pupil,
Montpelier Junior
School

I like school because it has a swimming pool and I like the school dinners. I don't like my teacher that much but he's all right. I like doing maths. And I like drawing as well. And I like spelling tests too. They are fun. I like to watch T.V. in school, we watch Zig-Zag. And I like to read and I like project too. And I hate science because all we ever do is right. After the summer holiday I will be going to the 3rd year. I have got a friend, her name is Sharon Clapon. She is in the same class as me. But the girl that I don't like is Cathrine Murry, she is always miserable. We have three computers. I like to have points and I like playing games and we play hockey and badminton. I like time-table tests and I like painting and I like S.R.A. Sometimes I like stroy S.R.A. And I like to play hang-man. But I don't like sewing. And I don't like singing in the hall. And I don't like the playing reading tests. Sometimes reading tests are good but most of the time I do not like them.
